

Amusement Park Physics

Inclement Weather Policy

2009

Michigan's Adventure has the following policy when it comes to inclement weather; therefore, this is the policy that the Middle School Amusement Park Physics program follows:

- The Park will be open even if it rains.
- On rainy days, some rides may close for safety reasons, and will reopen as soon as safely possible.
- More rides will close depending on how heavy the rain is falling.
- All rides will close during periods of lightning. However, the Park will remain open. You may seek shelter in covered areas such as the arcades.
- Rides will reopen as soon as the lightning has passed and it is safe to do so.

Please contact the Park at 231.766.9959 or 231.766.3377 for further information.
