Citizen Involvement— Mastered with Project Citizen

You *can* teach students to have an impact on their world *and* meet the state standards! Project Citizen helps students learn to identify problems, propose solutions, and present those solutions effectively. An outstanding academic service learning experience, Project Citizen is ideally suited to address the Public Discourse, Decision Making, and Citizen Involvement sections of the Eighth Grade Social Studies expectations and the Citizenship in Action standard of the High School Civics Credit. Expectations from other subject areas can also be addressed, making Project Citizen the ideal program for team teaching and integration.
