About Teacher Created Materials...

Teacher Created Materials' mission is to publish quality–research based, educational books and materials in all curricular areas for teachers and students at all grade and skill levels. TCM provides a broad spectrum of both quality resources and professional teacher training. While remaining grounded in sound educational practice, TCM likewise maintains educational vision and an open ear to educators and their changing needs.

Our Roots...

Who knows education better than teachers? No one. Teacher Created Materials is a publishing company based in that idea. Everything we do comes from teachers and is created just for them. We know teachers–because we are teachers, too. When Teacher Created Materials was founded in 1977, it was started by two classroom teachers looking to share their ideas and passion with their colleagues. The seeds they planted have blossomed into the vibrant and dynamic publishing company we know today. Privately and family owned since its conception, TCM is still run by teachers for teachers, and that will never change.

Teacher Created Materials is a proud member of
