Study Buddy – www.studybuddy.com

Homework help is only a click away! Enter a question in StudyBuddy search and find all the homework answers you need. Choose your grade level and browse through thousands of articles on hundreds of topics, all designed to help with your homework. Assignments don't have to be a chore anymore—use StudyBuddy to get homework help.

Create a Graph - <http://nces.ed.gov/nceskids/Graphing>

Here you will find five different graphs and charts for you to use. Maybe it will help explain what you are trying to show. Use homework problems, things you have a special interest in, or use some of the numbers you find elsewhere on this site.

A Game a Day – <http://www.agameaday.com>

Enjoy a new word game, word search, brainteaser, trivia game, anagram, cryptogram, crossword and more each weekday! Challenge your general knowledge, vocabulary, spelling, memory, concentration, critical thinking and problem solving.

Ask for Kids – <http://www.askforkids.com>

Ask for Kids (formerly known as Ask Jeeves for Kids) is a fast, easy and kid-friendly way for kids to search online. Designed to be a fun destination site focused on learning and "edu-tainment," Ask for Kids uses natural-language technology that allows kids to ask questions and perform web searches in the same way they would ask a parent, friend or teacher.

Fun Brain – <http://www.funbrain.com>

This site has games for students K-8. Teachers, parents, and students can search by grade level or subject area. Funbrain even has online Sudoku! Some of the areas are buried down a level or two. For example, if you click on All Games from the home page and scroll down to the More section, you can find: "Where is That?" – a geography game, "Who is That?" – a game about famous people, "Piano Player" – games with a virtual piano, and "Space Hopper" – a constellation game.
