## Leprechaun Traps Family Night Activity

 Catch the magic at White Lake Community Library! 

Get ready for a time of creativity and fun as we use recyclable materials to create traps in order to catch those mischievous little leprechauns. We will provide the basics: recyclables, tape, glue, markers, and paint. Feel free to bring more materials you may have from home to share in the crafting fun.

This event is free and open to all ages. Thursday March 12th 5:30pm
