

February 7, 2022

Dear Parents & Guardians:

Today, February 7, 2022 we learned that a person in your child's classroom at Ross Park GSRP tested positive for COVID-19 on February 5, 2022. This person last attended class on Thursday, February 3. This case will now be noted on our [COVID-19 Dashboard](#).

We have identified those that are close contacts and will be implementing the CDC recommendations accordingly for those individuals. The purpose of this letter is to notify you of potential exposure and ask that you monitor your child for symptoms.

**As a further classroom precaution during the upcoming days, staff will be conducting multiple daily temperature checks of each child attending class.** Should another member(s) of the classroom receive a positive test result, we may switch to virtual learning temporarily. We will keep you informed should additional information become available.

As a reminder, if your child has been exposed to someone who tested positive for COVID-19, or they have been exposed and are awaiting test results, please do not allow them to attend school. Remember, a person does not always display symptoms before testing positive for COVID-19. Please help limit the spread of COVID-19 by checking your child [each morning for symptoms](#).

Public Health has also provided these reminders:

- Wear a mask (covering mouth and nose) while in public places
- Limit social gatherings and practice social distancing (stay 6 feet apart)
- Wash your hands frequently, cover coughs and sneezes, and stay home if you are sick
- [Get tested](#) if needed and consider getting vaccinated if age eligible
