

CAREER CAMP

JUNE 16-19, 2025

CURRENT 7TH & 8TH GRADERS!

Explore an array of interactive career exploration classes, June 16–19, at the Career Tech Center (200 Harvey Street, Muskegon). Students enjoy up to four classes, \$15/day, from 8:30 a.m.–3:00 p.m. including lunch!*

All Things Beauty

Do you enjoy helping others look their best? Learn basic hairstyles, braiding techniques, skin care, make-up application, and nail care as you explore a career in cosmetology.

Animals and Plants, Oh My!

Discover agriculture careers while exploring sustainability, natural resources, and animal science. Learn to grow plants, handle animals, and identify plants and wildlife!

Auto Collision Repair

Discover how to repair cars that have been damaged in an accident using the same techniques the pros do. Work with Bondo filler, practice sanding, and paint a project to take home. Even learn how to weld a plastic bumper!

Long pants & closed-toe shoes required.

Building for Beginners

Learn basic construction practices and safety while building small-scale take-home projects. Students gain hands-on experience with hand and power tools.

Closed-toe shoes required.

Build Your Own Business

Learn the basics of entrepreneurship as you come up with your own food truck concept! You'll create a unique menu, brainstorm fun promotions, design a paper food truck, and think like a boss!

Foundry in a Box

Unleash your creativity as you design sand molds, cast molten metal into unique objects, and refine your very own metal masterpiece to take home!

Long pants & closed-toe shoes required.

Imagine, Design, Print!

Explore the world of graphic production and printing by designing and creating projects to keep. Use iMac computers and professional software such as Photoshop, InDesign, and Illustrator.

Hands-on Health

Practice medical skills like taking vitals, handwashing, and dispensing medicine. You'll also build a heart model and test out personal protective equipment as you finish with a watermelon explosion!

Junior Caregivers

Become a confident and responsible babysitter in this fun and interactive class! You'll practice caring for kids and get hands-on CPR and first aid training to be the best babysitter on the block.

Lights, Camera, Content

Create videos, podcasts, and posts that pop! In this hands-on class, you'll tell powerful stories with media. From writing and filming to editing and sharing, you'll build real skills in video, audio, and social content creation.

Make Games with MakeCode

Learn programming basics by building and playing digital games on a mini-computer! Create multiple games using your own ideas, graphics, and a library of cool examples.

Metal Masters: Intro to Welding

Step into a real welding lab and learn the basics of MIG welding in a fun, hands-on class! You'll cut, shape, and fuse metal to create your own birdhouse or toolbox.

Long pants & closed-toe shoes required.

The Art of Teaching

Turn learning into an adventure! Explore the world of teaching through music, art, and storytelling while building creativity and leadership skills.
