

May, 5 2021

Dear Parents & Guardians:

Yesterday, our staff confirmed that a person that recently entered the Transition Campus tested positive for COVID-19. This person did **NOT** have contact with any participants on the bus or at school, consistently wore a mask and did not display any symptoms.

For these reasons, your young adult is not considered a close contact of the positive case and your young adult may continue attending the Transition at Craig Campus for in person learning. As always, if your young adult shows [symptoms](#) of being sick, they must stay at home.

Thank you for understanding that, due to medical privacy laws, we are not able to release the name of the individual. Because the person tested positive, this case will be noted on our [COVID-19 Dashboard](#).

While the health and safety of our participants, families, and staff is our top priority, **some participants may not be able to consistently wear masks or social distance due to their physical or cognitive disabilities.** That's why it is very important for you to check your young adult [each morning for symptoms](#). If your young adult does show symptoms, keep them home and contact your healthcare provider. Muskegon Public Health has provided these reminders:

- Wear a mask (covering mouth and nose) in public places or if people visit your home
- Limit social gatherings and practice social distancing (maintain a distance of 6 feet apart)
- Wash your hands frequently, cover coughs and sneezes, and stay home if you are sick
- [Get tested](#) if needed

If we all work together, we can maintain a safe place to learn while also providing quality education. If you have any questions, call me at 231-767-7320 or call Public Health-Muskegon County at 231-724-1203. For answers to your COVID-19 questions, please call the Michigan Department of Health and Human Services COVID-19 Hotline at 888-535-6136 or visit Michigan.gov/coronavirus.

Sincerely,

Katie Slaghuis
Principal, Transition Campus at Craig
