NGSX: NextGen Science Exemplar System*

The Next Generation Science Exemplar System for Professional Development, or NGSX 2.0*, is a discourse based PD environment designed to engage teachers with the practices and disciplinary core ideas in the National Research Council's Framework for K-12 Science Education, supporting teachers in the enactment of the Michigan Science Standards.

In this workshop, teachers will:
- Engage and deeply examine the Science Practices of Modeling, Explanation, and Argumentation
- Develop and utilize tools to improve classroom practice towards achieving the vision of the Framework for K-12 Science Education

*NGSX is a copyrighted program designed by Clark University, Tidemark Institute, & Northwestern University. For more information please visit, www.ngsx.org.
